THE GREAT WHEAT BELT

(Continued.)

Town of Edmonton.
The assessment of the town for 1902, was \$1,724,000.

The population by the census of 1900 was 2,650. But with the rapid increase which has since taken place it is now not less than 3,500. Building operations have been carried on briskly all winter, and preparations are made for an exceedingly lively building season during the present year. A number of handsome brick structures are now being arranged for. As the surrounding country does not afford stone, the important buildings are of brick, of which an excellent quality is made here. There are two large brick yards. The price of brick is \$8.00 per thousand for common and \$15 for pressed. Edmonton has the only plant in the Territories for the manufacture of pressed brick.

Lumber is derived from the local supply of spruce, and from the forests and mills of British Columbia in the mountains and on the coast. Rough spruce sells at \$18 per thousand feet and dressed British Columbia flooring or casing at \$34.

MILLET

We are having very delightful weather these days.

Our livery men are kept busy taking out land seekers.

The teacher of our public school is worthy of praise; her scholars are making rapid progress in education.

We have been informed that township 48, range 23 is now being surveyed and that township 49, range 22 is already surveyed. This gives home seekers an opportunity to obtain homesteaded land within five miles of the town of Millet.

Arrangements are being made to construct a ferry across Coal Lake. A steamboat is also to be placed on the lake. This lake is a body of water made up of springs which flow from the banks; it contains fish and the scenery in the neighborhood is indeed grand. The farm land tributary to the north side of this lake probably has no rival.

Mr. Fanning, our blacksmith, has moved into his new residence. Mr. Mullen is disposing of a large quantity of lumber to the many settlers who are putting up new buildings.

Jacob Boska will grant five acres of land for a Roman Catholic church site. Our town has already a Methodist church, and a Presbyterian church will be built in the near future.

The Arlington Hotel is doing good business. Its guests report it as second to none along the line.

The dentists, Drs. Caesar and Miller, give us a two days' visit, and are doing a rushing business. They have rooms at the Arlington Hotel.

R. T. Heyden, of the real estate firm of Hastings and Heyden, Omaha, Neb., who was here a few days ago, has returned here again after travelling up and down the line.

March 12.

LEADUC

Alex. Dush has re-commenced building in Leaduc.

Mr. Cooper, from Delhi, Ontario, has bought the property held by Mr. Schirmer, on Main street, for \$600.

Mr. Hamber, jeweler, bought two lots on Main street held by Mr. Simmons, at \$10 per foot.

F. J. Meliss has opened a lumber yard in Leaduc.

J. Turner is preparing to build a brick front to his shop on Main street.

Dr. Sutherland is making preparations for building.

Mr. Archer is contemplating a big addition to the Waldo.
